

## Introduction

The Liquidity Coverage Ratio (LCR) is a minimum standard set by Basel III, to promote short-term resilience of a bank's liquidity risk profile by ensuring that it has sufficient High Quality Liquid Assets (HQLA) to overcome total expected cash outflows minus total expected cash inflows as per SAMA / Basel specified stress scenarios for the subsequent 30 calendar days.

The LCR report for SAIB is prepared in accordance with the public/ market disclosure requirements and guidelines in respect of the Liquidity Coverage Ratio Disclosure Standards as published by the Saudi Arabian Monetary Authority (SAMA) in August 2014. The purpose of this document is to disclose both qualitative and quantitative information regarding The Saudi Investment Bank's (SAIB) liquidity position, LCR results and internal liquidity risk measurement and management processes.

## Governance Framework and Liquidity Management

SAIB's Board of Directors has the overall responsibility for the Bank's liquidity risk management by ensuring that the Bank's risk exposures are maintained at or above the minimum levels. To this end, it has established an appropriate liquidity risk management framework for the management of the Bank's funding and liquidity management requirements. Further, SAIB maintains contingency Funding Plan (CFP) which identifies a diversified set of readily available and deployable potential CF resources under crisis situations.

Senior Management (through the Asset Liability Committee- ALCO) monitors the information on the Bank's liquidity needs and market developments on a monthly basis. The management of the Bank's liquidity management is further delegated to the Treasury group to ensure the Bank's liquidity positions are maintained according to the policy. SAIB seeks to hold unencumbered high quality liquid assets to ensure compliance with minimum LCR requirements and has set internal triggers to provide timely escalation to ensure mitigating actions are taken.

## Qualitative Disclosures for LCR as at March 2018

The three month average LCR (as provided on the next page) decreased from 223 % as of as of December 31, 2017 to 198% as of March 31, 2018. There is an increase in unweighted *HQLA* from SAR 18.86 billion to SAR 19.38 billion. The weighted *cash outflows* amount of performing exposures increased from SAR 12.83 billion to SAR 13.57 billion while the weighted value of *cash inflows* decreased from SAR 4.38 billion as of December 2017 to SAR 3.78 billion as of March 2018. Which resulted in total increase in *net cash outflows within 30 days* from SAR 8.45 billion to SAR 9.79 billion.
